

**Boston
Children's
Hospital**

Until every child is wellSM

To whom it may concern:

Boston Children's Hospital would like to thank Sound Management Group for helping us with the installation of White Noise in our office. From the beginning, SMG was very helpful in explaining the installation process and they were very flexible to accommodate our office needs. The installers got everything done in a timely fashion and we appreciate everyone's hard work with this process. This was by far the easiest project I was able to work on to date. I highly recommend Sound Management Group if you'd like to work with a professional company that handles the entire process seamlessly.

Thanks again for all of your help,
Ally Dorsey
