Sound Management Group
5 Ilene Court
Building 7, Unit 3
Hillsborough, NJ 08844

Dear Paul,

Interport's sales team collaborates closely and performs best in an office with an open floor plan. But in our new building we encountered everyday occurrences of excessive noise that seriously compromised our salespeople's comfort and caused their productivity to plummet.

Sound Management Group provided the ideal solution. Custom-fit acoustical wall panels and studio-grade door seals have effectively eliminated all noise. Interport now enjoys the best of both worlds: an optimal office layout plus a sound environment that's conducive to working. As an added bonus our new panels perfectly complement our interior décor.

SMG's engineering of this solution was spot-on, and your installation crew was courteous, competent, conscientious, and quick. Interport's modest investment in this strategic enhancement has already paid off.

I'd like to thank everybody at SMG, and I'm happy through this testimonial to recommend your services to anyone who might benefit from your technical expertise and the cost-effective sound management solutions you offer.

Sincerely,

Steven J. Bernstein
President & CEO
